Dear Mr. Silverstein:

On behalf of President Václav Havel please allow me to thank you for your letter dated 9 October 1998, in which you request support for the worldwide campaign on peace on January 1, 2000.

We realize the importance of projects such as "One Day in Peace," which helps to bring individuals, communities and nations together to work for a common goal - a day of peace. Declaring the year 2000 as the "International Year of Peace" is probably a very important proclamation at the threshold of the 21st century. We also think that "peace on earth" is our common task that we must work on .

On behalf of President Havel, once again, please allow me to thank you for your letter. We wish you good fortune and great success with your project.

Sincerely yours,

  
Petr Buriánek,
