Dear Mr. Silverstein:

Thank you for contacting me regarding the One Day in Peace Campaign.

As you know, one day can make a difference. During July 1990, the people of Kuwait enjoyed the rights and privileges of Kuwaiti citizenship. On the second day of August, 1990, their lives became radically different as Iraqi forces steamrolled across the border. Similarly, Europeans--through the terror of Adolph Hitler--know the difference a day makes.

I laud your efforts for this worthy and history-making cause. Again, thank you for sharing your comments and please don't hesitate to write again on this or any other issue.

Sincerely,

Kay Bailey Hutchison
